An illustrated guide to getting started with the PMDG 747

The 747-400 X FMS consists of two Flight Management Computers which are located in the electronics and equipment bay. Each FMC is comprised of five processors, and integrates data received from the air data sensors, crew input, navigation radios, engine and fuel sensory systems, inertial reference system and internal navigation database.

Hi,I've been using the 744 for quite a while now and for the past days, I have been confronted to something I dont understand. After takeoff, when I activate the AP, the plane usually follows the plotted course without any issue until I land. Now I have re-installed my FSX on a dedicated drive and thus re-installeld the PMDG 747-400.
