Galaxy Engineer's Manual. Connecting the RIO Configuring the RIO. The RIO can only be connected to the system while engineer mode is accessed. The RS485 (AB) line of the Galaxy RIO must be wired in parallel (daisy-chain configuration) with the RS485 (AB) line of any keypads connected to the system.

GALAXY - JustAnswer

I'm not an engineer but I've found my way around our alarm system fairly well using the manual. I cannot get out of engineer mode. I've entered the engineer code and pressed escape, it checks for tampers and finds 'RF Module 4'. I think it might be something to do with the fob but I am not sure and unable to find out for sure and how to clear it.
