A light 35mm lens is my favorite tool for street photography. Go for the f/2.8 version over the f/1.8, since it is much smaller and lighter. If you are very nervous about getting close to your subjects, rent a 50mm so you can shoot from a little further away.

A Street Photographer's Guide to New York City

"Light and Lens" is an ambitious work in that it presents an immense amount of complex technical information very clearly and succinctly without leaving anything out, weaves historical information throughout, challenges students (everyone!) to 'think critically' about the photograph and their own work at every turn, coaches, encourages, and it is also beautifully designed -- giving each ...
