### The Logic Book 5th Edition

The 5th edition turns out to be the least questionable of all, I am told both online and in person. The book itself is good, the explanations and examples not always the best -- as it is with some books, but sufficient for understanding the concepts. I believe that the book could be adequately separated as a textbook and an activity book.

### The Logic Book 5th (fifth) edition: Merrie Bergmann ...

I would give it five stars, but there are a lot of typos which is surprising since it's the 6th edition. This book covers propositional logic and predicate logic, and it does so very thoroughly. What's also great is that there are many examples. Read more. 9 people found this helpful.
